

Program delivery

Students have a two-hour session of on-site instruction after school hours each week during teaching weeks, and two additional hours of programmed off-site work per week, supported by resources on www.languages.org.au and class pages on Google Classroom.

Our calendar of events, including information evenings, registration evenings, assessment tasks and our end of year ceremony is on the [Events page](#) of CAL website. **News updates** are published regularly on the [News page](#) on CAL website.

Our program of learning for each course comprises a semester unit outline, a term-by-term overview and a set of weekly modules that outline each week's learning goals, learning resources, activities to do on-site and activities to do off-site. For more details, see our [resources website](#).

The Canberra Academy of Languages maintains regular communication with students' families and with their schools.

A specialist facility for Canberra

The Canberra Academy of Languages is a not-for-profit specialist education provider for language learning in the Canberra region, with a focus on global engagement and local connections.

We aim to enhance the role of Canberra as the national capital and as a major regional city, by:

- promoting capacity of students to participate effectively in the global community
- creating learning avenues that reflect the interests of groups in the Canberra region.

In pursuing these goals, The Canberra Academy of Languages complements other avenues for language learning in the ACT.
