

Program delivery

Students have a two-hour session of on-site instruction after school hours each week during teaching weeks, and two additional hours of programmed off-site work per week, supported by resources on www.languages.org.au and class pages on Google Classroom.

Our calendar of events, including information evenings, registration evenings, assessment tasks and our end of year ceremony is on the [Events page](#) of CAL website. **News updates** are published regularly on the [News page](#) on CAL website.

Our program of learning for each course comprises a semester unit outline, a term-by-term overview and a set of weekly modules that outline each week's learning goals, learning resources, activities to do on-site and activities to do off-site. For more details, see our [resources website](#).

The Canberra Academy of Languages maintains regular communication with students' families and with their schools.

How courses are identified to run

Classes are identified to run based on four criteria:

- Availability of a BSSS-accredited course
- Sufficient enrolments to fund program costs
- Availability of suitably qualified teachers
- Absence of a comparable centrally delivered ACT program.
