A specialist facility for Canberra

The Canberra Academy of Languages is a not-for-profit specialist education provider for language learning in the Canberra region, with a focus on global engagement and local connections.

We aim to enhance the role of Canberra as the national capital and as a major regional city, by:

- promoting capacity of students to participate effectively in the global community
- creating learning avenues that reflect the interests of groups in the Canberra region.

In pursuing these goals, The Canberra Academy of Languages complements other avenues for language learning in the ACT. We are working on a transition plan for government involvement, which exists in other Australian jurisdictions where there are similar organisations.

- Availability of suitably qualified teachers
- Absence of a comparable centrally delivered ACT program.
